

Communicating with students

Communicating with students.

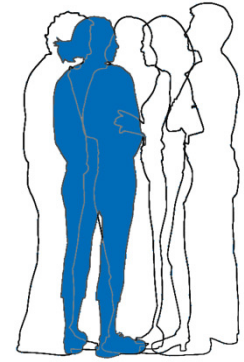

You can only really be effective as a Course Rep if you communicate effectively with your students. In this session we will consider:-

1. What you need to communicate
2. What barriers there might be to communicating effectively
3. How to overcome these barriers and set up good communication.

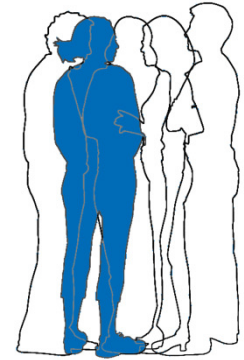

NB. There are no right or wrong answers here – just better or worse ones. It's really down to you to work out what is best for you and your students.

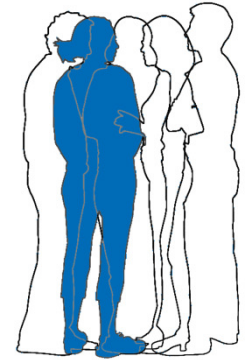

What should Reps communicate to students?

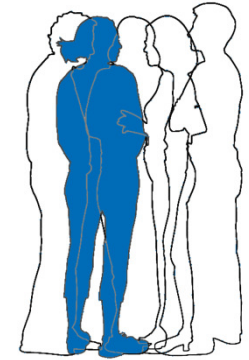

What barriers are there to communicating effectively with your students?

**So what are you going
to do to overcome
these barriers?**

Questions?

Course **Representatives**
